

AI for Auburn University Baseball (Database Development)

- Given a number of reports: Hitting, Pitching, Catching, develop a Database that will continue to capture this information for the Auburn University Baseball Team and allow the Coaches to query it for information.
- This database will be used to develop AI models for predicting hitter, pitcher, pitch type, batter tendency, pitch location, and defensive position.
- Yes, this is AI version of 'Money Ball' for the Auburn University Baseball Team
- Coach Teaforde is interested in developing a pipeline of CSSE AI-Based Analysts to Major League Baseball Teams
😊 !!!
